

SPECIAL SECTION!

STREET ROD PICKUPS

• **TIMELESS T-BUCKET!**

• **RADICAL '29 PHONE BOOTH!**

How do you recognize a Fresno street rod? Check the stance — loooow! The cab has been chopped, filled and sectioned. Fenders are fiberglass, and if you look closely you'll see the rollers mounted on the lower four-bar mount to keep it off the deck when executing driveways, speedbumps, etc.
